Cyber Security Awareness Month Presentations

**October
2012**

Presentation Schedule

"Physical Security Best Practices and IT Convergence"

Tuesday, October 9, 2012 from 10:00 am to 11:30 pm, 101 Cold Harbor Dr.
Brad Pyles, PSP, from Advanced Digital Solutions, LLC will address physical security from analog to digital and beyond.

"Current Threat and Mitigation State: A Whole New World"

Thursday, October 11, 2012 from 10:00 am to 11:00 am, 101 Cold Harbor Dr.
David O' Berry, Technology Strategist from McAfee, discusses the current threat and mitigation state including the newest challenges to the Digital Ecosystem.

"The State of Web Exploit Kits"

Tuesday, October 16, 2012 from 10:00 am to 11:00 am, 101 Cold Harbor Dr.
Jeremy "Howie" Howerton, Technologist of HP-ESP at HP, will dive into how some of the most popular exploit kits work.

"How to be an Individual Contributor to Enterprise Cyber-security"

Friday, October 19, 2012 from 10:00 am to 11:00 am,
*Room C118, Transportation Building, 200 Mero St
Brian Tillett, Chief Security Strategist at Symantec explains how cyber-security involves the individual.

"Passwords, Policies, People,... and Problems!"

Wednesday, October 24, 2012 from 10:00 am to 11:30 am, 101 Cold Harbor Dr.
Brent Crossland, Sr. Manager of State Government Initiatives at Entrust, will speak on NSTIC (National Strategy for Trusted Identities in Cyberspace) and HIT (Health Information Technology) and other trends in identity management.

INGUARDIANSSM

"Weaponizing the User"

Friday, October 26, 2012 from 2:30 pm to 4:00 pm, 101 Cold Harbor Dr.
Chris Sanders, Senior Security Analyst for InGuardians, will discuss how users are not just the target in attacks, they are often the weapon as well.

*Note location is different.

All locations are in Frankfort, KY, 40601.

SDGblue, LLC was instrumental in obtaining speakers from Entrust, HP and Symantec.

For information on reserving a seat and for more details about the presentations go to:
